Inspection Fails

Out of 100 SKUs

36% failed inspection. 76% of SKUs in Average or Poor quality tier — urgent action needed.

Revenue by Product Type

Skincare Dominates

41.8% of total revenue — highest contributor.

- Skincare: ₹2,41,628 · 41.8%
- Haircare: ₹1,74,455 · 30.2%
- Cosmetics: ₹1,61,521 · 28.0%

Cosmetics has best avg/SKU at ₹6,212 despite fewest SKUs (26).

Revenue by City

#1 Mumbai

₹1,37,755 · 23.8%

#2 Kolkata

₹1,37,078 · 23.7%

#3 Chennai

₹1,19,143 · 20.6%

#4 Bangalore

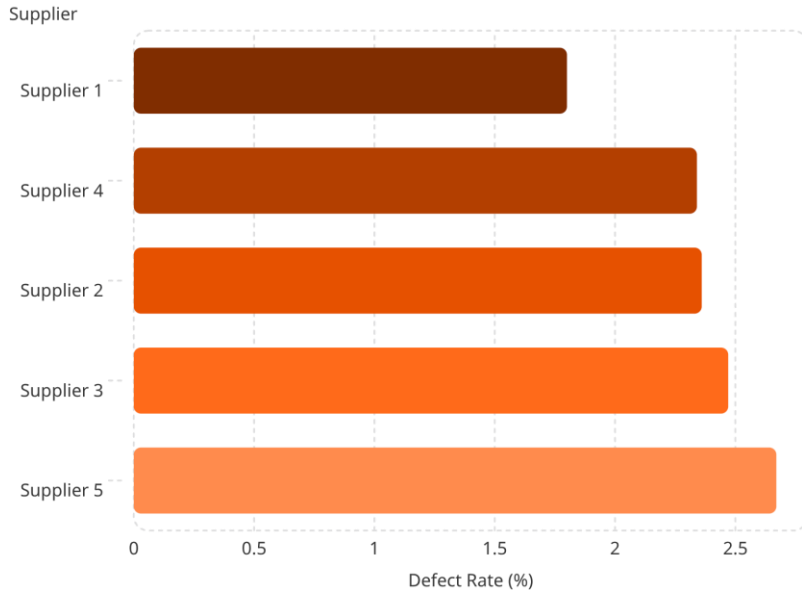

₹1,02,602 · 17.8%

#5 Delhi

₹81,028 · 14.0%

Mumbai + Kolkata = **47.8%** of revenue. Delhi generates **41% less** than Mumbai — significant regional gap.

Supplier Performance

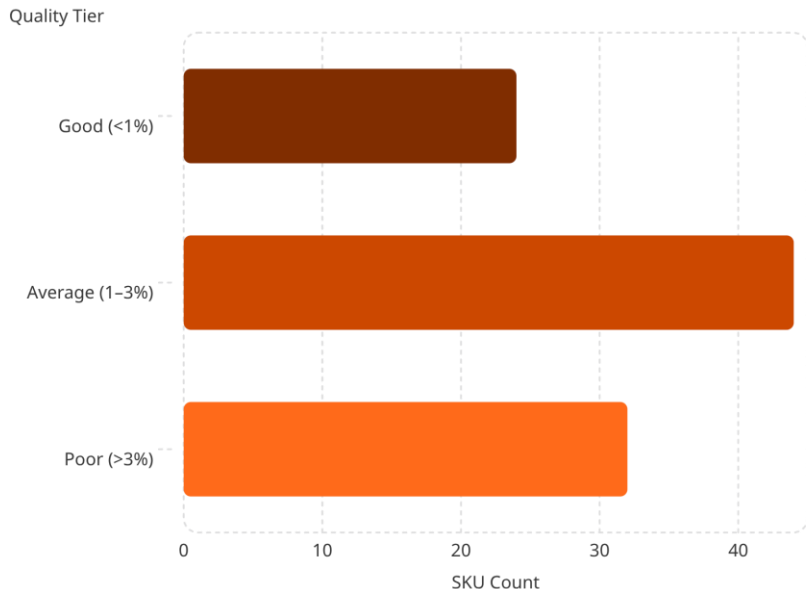

Key Observations

- **Supplier 1:** Best — 1.80% defect, 14.8 days lead time
- **Supplier 5:** Worst defect rate 2.67% — needs quality audit
- **Supplier 3:** Slowest at 20.1 days — 36% slower than Supplier 1

Overall defect avg 2.28% — above ideal 1.5% FMCG threshold.

Quality Control Crisis

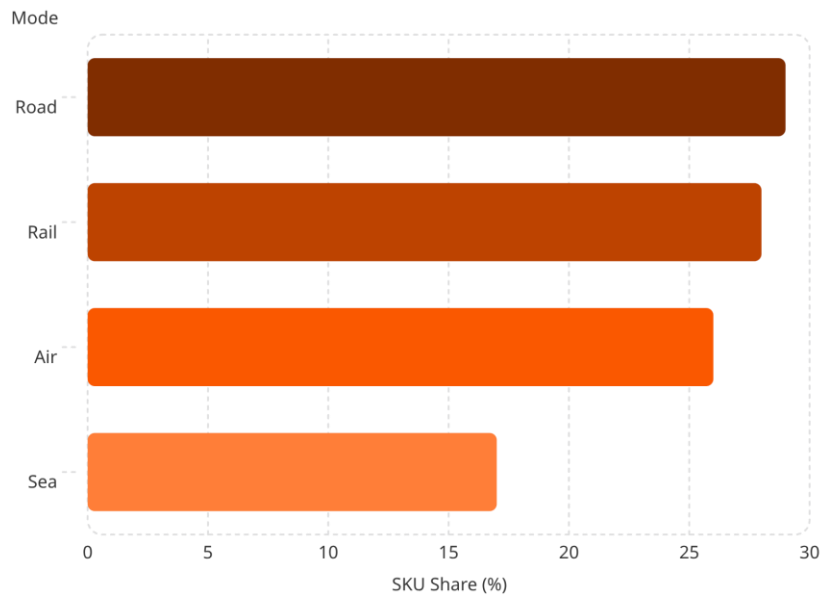

Inspection Results

- **23% Pass** — Only 23 SKUs cleared
- **36% Fail** — 36 SKUs failed outright
- **41% Pending** — True fail rate may be higher

76% of SKUs are Average or Poor quality. Immediate root cause analysis required.

Logistics & Inventory

Transport Mode Split

Route Costs

- Route A: ₹485.48 — **Preferred**
- Route C: ₹500.47 — Backup
- Route B: ₹595.66 — **+22.7% costlier**

Inventory Risk

- Skincare: **40.2 units** — ⚠ Low stock
- Haircare: 48.4 units — ✓ Balanced
- Cosmetics: **58.7 units** — ↑ Overstocked

Key Insights & Recommendations

Supplier 1 — Best Performer

Increase allocation for high-value SKUs

Skincare — Inventory Risk

42% revenue, lowest stock — buffer +20–25%

Quality — Most Urgent

77% non-pass rate — audit all suppliers

Route B — Cost Drain

Shift to Route A — save 22.7%
